

HOW TO START PROCESS REORGANIZATION

MAKE YOUR PROCESSES AND PROCEDURES MORE EFFICIENT

Have you ever been thinking about following questions?

„Can't we be faster, more efficient, and cheaper?“

„Are we using the right practices in the right systems?“

„Couldn't the team be happier if we adjust the existing system settings?“

If you nod in agreement, we have a solution for you.

Process Analysis

Data collection and information during online/personal workshops based on a schedule. Defining critical processes and expectations. Description of processes in the current form of AS-IS.

Process Mapping

Graphic processing of gathered information displayed in process maps in the form of AS-IS, TO-BE, and highlighting of critical steps known as bottlenecks.

Documentation & Recommendations

Creation of process documentation including recommendations, process maps, implementation plan and visualization of process reorganization options.

WHY BET ON US?

RSM Technology offers you a tailor-made solution. We approach each customer individually concerning preferences and needs.

Our team benefits from experience in various industries such as law, accounting, IT or logistics companies.

LUCIE ODEHNALOVÁ

Lucie is the manager of the Management Consulting team.
